# OUR FUTURE IS NOW

Saint Thomas, a Greek Orthodox Community of the Great Church of Christ

## Our Vision of the Future

The Greek Orthodox Church makes no sharp distinction in its worship between the spiritual and the aesthetic. One becomes aware of God's presence through the senses...Our goal is to beautify our Church building in a manner that enhances our Liturgy to help us become aware of God's presence through our senses.

### The Dome

In a domed church one is always conscious of the hovering hemisphere, which invites symbolic identification with the "dome" of heaven.

### The Bell Tower

The ringing of bells is one of the most essential elements of an Orthodox Church. Church bells are rung to Strengthen Christians in piety and faith.

### And...

Replace ceiling with iconographic plaster, install terracotta roofing, vaulted narthex, stone veneer, columns, sound improvements, lighting and so many other features of our beloved and inspiring Saint Thomas Project.

Fifty years ago our Parishioners built Saint Thomas Greek Orthodox Church, to provide the Greek Orthodox faithful of Delaware Valley a place to worship in the religion of those who came to the United States to begin a new life. The Church has become the home of more than 700 families who worship freely and celebrate their glorious Hellenic Heritage. Today we honor those who started our Church by transforming the present building into a beautiful basilica to enhance our worship and to give glory to God who has blessed us.

## YOUR GIFT - YOUR PLEDGE!
